

World On Fire

Harem Scarem

We walk alone through space and time
As the world is on life support in critical condition

Now we all feel lost and torn apart
Hallowed horsemen ride us into the dark
End of days and judgement are coming down from above

Now there's nothing I can say
Nothing I can do
If the rain won't fall
In a world on fire
Nothing I can say
Nothing I can do
If the rain won't fall
In a world on fire

Cold is the sun and the stars refuse to shine
As the water rises pray for divine intervention

Now we all feel lost and torn apart
Hallowed horsemen ride us into the dark
End of days and judgement are coming down from above

Now there's nothing I can say
Nothing I can do
If the rain won't fall
In a world on fire
Nothing I can say
Nothing I can do
If the rain won't fall
In a world on fire

Now there's nothing I can say
Nothing I can do
If the rain won't fall
In a world on fire

Now there's nothing I can say
Nothing I can do
If the rain won't fall
In a world on fire
Nothing I can say
Nothing I can do
If the rain won't fall
In a world on fire
Nothing I can say
Nothing I can do
If the rain won't fall
In a world on fire
Nothing I can say
Nothing I can do
If the rain won't fall
In a world on fire
