

# Fine Line

Harlequin

The image on the mirrored wall  
Went and gave it all away  
Reflections getting clearer and clearer  
It ain't worth the price no matter how much you pay

I know it's not right for me  
I couldn't tell when things went wrong

But it's a fine line on the razor's edge  
It's time to decide before nothing is left  
And the head and the heart  
You left out in the dark  
Seek the light of a brighter day

Sever all relations  
You have an island to protect  
And there you sit, directing, collecting  
A prize for your neglect

I know it's not right for me  
But I couldn't never be that strong

Yes, it's a fine line on the razor's edge  
It's time to decide before nothing is left  
And the head and the heart  
You left out in the dark  
Seek the light of a brighter day

I know it's not right for me  
But I couldn't never be that strong

It's a fine line on the razor's edge  
It's time to decide before nothing is left  
And the head and the heart  
You left out in the dark  
Seek the light of a brighter day

Light of a brighter day  
Fine line  
Fine line  
Head and the heart  
You left out in the dark  
Seek the light of a brighter day  
Fine line  
Fine line  
Head and the heart  
You left out in the dark  
Seek the light of a brighter day
