

Hard Road

Harlequin

At one time or another
You're gonna believe me
Just one false move
And surely you'll fall
Too many hopes
Too many dreams
And so many things to do
And don't sweat it
Forget it
Life was always here for you to use

It's a hard road
You're gonna have to follow
It's a hard road
You're gonna have to follow

Nobody is special
Standing in line
You better watch your steps
Do it in time
There's too much to have
Too much to get
Too much to to give today
Now don't sweat it
Forget it
There has never been an easy way

It's a hard road
You're gonna have to follow
It's a hard road
You're gonna have to follow

It's a hard road
You're gonna have to follow
It's a hard road
You're gonna have to follow

It's a hard road
You're gonna have to follow
It's a hard road
You're gonna have to follow

Such a hard road
You're gonna have to follow
It's a hard road
You're gonna have to follow
