

# It's Only the End of the World

Harley Poe

Now the women are cryin' and the kids are dyin' and the men are runni  
n' away  
Somethin' weird has happened and the devil he's a-  
laughin' and the church don't know what to say  
Now the recently deceased have been openin' their eyes, but I know it  
's been prophesied  
Through the comics I've been readin' and the movies I've been seein',  
so it comes to me as no surprise

And I don't care, I didn't warn the human race  
It's only fair, oh that we take our place

'Cause it's the end of the world, and I don't give a shit  
The earth will be a better place without you and me  
So I climb up on my roof to throw myself from it  
Because doom, death, and destruction is all I see

Now reporters are talkin', and the zombies are a-  
walkin', and the government's been fallin' apart  
So I think I better go, 'cause these puppies ain't slow, even though  
they ain't very smart  
If you notice more than five and you wanna stay alive then you probab  
ly should be running away  
I saw them tear my wife in two, there was nothing I could do, but it  
happened just the other day

I didn't care, 'cause it was time for her to go  
It's only fair, and now she's better off, I know

'Cause it's the end of the world, and I don't give a shit  
The earth will be a better place without you and me  
So I climb up on my roof to throw myself from it  
Because doom, death, and destruction is all I see  
Alright!

Now I'm sittin' on my house, I'm as quiet as a mouse, but they still  
keep gatherin' 'round  
So I made myself a deal, they're gonna get a meal, when I throw mysel  
f to the ground  
As they're waitin' down there, I'm gonna drink my last beer, God forg  
ive me for my sin...  
I'm hopin' I will be dead if I should land on my head, if not I'll be  
born again

And I won't care, cause now it's time for me to go  
It's only fair, and now I'm better off, I know

'Cause it's the end of the world, and I don't give a shit  
The earth will be a better place without you and me  
So I climb up on my roof to throw myself from it  
Because doom, death, and destruction is all I see

Everybody!

It's the end of the world, and we don't give a shit  
The earth will be a better place without you and me  
So we climb up on our roofs to throw ourselves from it  
Because doom, death, and destruction is all we see  
Because doom, death, and destruction is all we see  
Because doom, death, and destruction is all we see
