

# Olivia

Harley Poe

I got my figures on the wall  
Comics stacked up in the hall  
I got a movie in my DVD player  
I got my music that I love  
And a girl sent from above  
I got my problems but  
They seem so little next to her  
Man, oh, man I got no money  
Spend it all on my new honey  
I got you and you got me  
And that's all that we need  
No one seems to understand me  
Lay there still don't ever leave  
I feel inside you're all I have  
So, baby, hear my plea

And even though I can't converse with you  
There are so many other things that we can do

As you lay there lifeless on my bed  
You were never really livin' so you can't be dead  
You'll never die so tears won't be shed

So you think that I'm so cool  
Not like I was back in school  
I didn't have a friend and everyone was mean  
Introverted and I know it  
And I'm not afraid to show it  
'Cause there's no one here like me  
It's my scene  
Man, oh, man I can't relate  
To others and it feels so great  
I don't need people, don't need friends  
I only want my toys  
Lovin' you it must be sin  
I'm talkin' to myself again  
That's okay 'cause momma said  
I'm not like other boys

And even though I can't converse with you  
There are so many other things that we can do

As you lay there lifeless on my bed  
You were never really livin' so you can't be dead  
You'll never die so tears won't be shed

Olivia, you're not a real female  
But you'll work for me  
When relationships fail  
Olivia, your skin it feels  
So real  
On the Internet  
Is where I got this great deal  
Alright!

That's it
