

Marry Me

[Harmonize](#)

Me, I no get money
Any thing to give you
But the love that you give me
Affect my pain
In the night, in the morning I just wanna be close to you
Hold me tight my baby, take off my pain

Nobody love you, like I do
Oh yes, I do
If no be you baby tell me who
Oh baby, tell who
I never seen myself going for someone in love
Now I see myself dying for someone in love

Will you marry me?
Will you marry me?
Baby, I want to know
Will you marry me?
Will you marry me?
Baby, I want to know
Will you marry me?

Anytime I want to see your face
You free my mind mind you no make I stress
You call my Konde boy, yes
You make temperature low low down
You like so fine when you dress

I say my heart is no be lie what I feeling is true
Ago love you till you die, I say know one know one like you
Ago take you to Zanzibar you and I, free your mind vacation
Is a shopping to the Dubai just to change your location

Ooh nana, I never seen myself going for someone in love
Now I see myself dying for somebody in love

Will you marry me?
Will you marry me?
Baby, I want to know
Will you marry me?
Will you marry me?
Baby, I want to know
Will you marry me?
