

## Serious Love

Harmonize

(Black black black)

All the love, serious love  
So serious  
I wanna talk about the love  
Serious love so serious

I wanna talk about the love  
Since I met you, I started to text you  
Now I finally date you  
I say nobody know we can go this far  
We do what we want, yes we shoot by the star  
Aiii aii aii my sun shine moonlight  
I'm your daddy in the dark night

I don't wanna loose you yeah  
I swear they wanna abuse you yeah  
Till you do me juju  
No your body to da voodoo

All the love, serious love  
So serious  
I wanna talk about the love  
Serious love so serious

Everything you ever need say it I go do it girl  
One time, two time, three time I go repeat eh  
This type of love I never seen it before  
We can do it in the car, in the kitchen, even on the floor

Baby open the door am coming in  
Yeah am coming in  
Give me some more lemme feel your skin  
Yeah am coming in

I say nobody know we can go this far  
We do what we want, yes we shoot for the star

I don't wanna loose you girl  
I swear they wanna abuse you yeah  
Till you do me juju  
No your body to da voodoo

All the love, serious love  
So serious  
I wanna talk about the love  
Serious love so serious
