Yeah! Yeah yeah yeah yeah  
Yeah

I been thinking all night alone  
Why you don't wanna pick my phone  
Are we okay? Are we okay?  
Say my baby tell me where I did you wrong  
What yah know, we have every song  
Are we okay? Are we okay?

Yeah I never tell you lie, tell you lie  
Together we go die, we go die  
You make me feel alright, alright  
Are we okay?  
My baby see, what I remember you used to say  
Always together we find a way  
We have to pay, so why today  
Why?

Why you wanna leave me  
Why you wanna leave me  
Where you wanna go?  
You wanna go?  
So why you wanna leave me  
Why you wanna leave me  
Where you wanna go?  
You wanna go? You wanna go?

Tell me where you going when you leave  
Always knew there's something up your sleeve  
You told me that you need some time to breathe  
[?] I can't believe 'cause  
Okay ila najua we had a fight  
Over something I think that she dislikes  
You were too kind in the middle of the night  
Let's forget who is wrong and who is right  
All I'm trying to let you know is how our ears compromised  
[?] we go improvise  
I swear that I wanna treat you right  
Kiss you on your lips and also hold you tight  
See you gotta take your time  
[?] it's fine  
But if you tell me it's over you cross the line  
Okay now tell me so where would you wanna go  
[?] on low  
I won't cry for you for putting up a show  
If you do love me why the hell you do me so  
Can you talk I wanna know

See now  
All my guys there used to say  
If I leave you I no go find someone like you

I swear when they call me I go tell 'em say  
Now you want me leave without you, without you

Baby why, why?  
Why you wanna leave me  
Why you wanna go?

Thank you for the sound, sound
