

Dead Space

Harm's Way

Days turn black, I waste away
Waiting for tomorrow
Pull myself from misery
I can't escape my soul
Will I find my destiny, try to manifest a dream
Free me from this hope
Of an afterlife, plagued by existence

All your prayers won't save us
All you give won't save us
All your dreams won't save us
All your help can't save us

Save us now

It's just black hole
Dead space
Just a black hole

We're just chasing time, as the days waste away
All the pain and fear, just to feel something real
Look to the divine, there's no order to our fate

Free me from this hope
Of an afterlife, plagued by existence
I am nothing
