

Terrorizer

Harm's Way

I watched you betray me
I want you to fear me

Terrorize the enemy
The enemy is you
Terrorize the enemy before they terrorize
Before they terrorize you

A phantom, confuse me
I'm wounded, so lifeless
To breach the silence, enjoy the violence

Terrorize the enemy
The enemy is you
Terrorize the enemy before they terrorize
Before they terrorize you

Never let them take control, before they terrorize you
Watch them bleed in front of you, before they terrorize

Terrorize the enemy
The enemy is you
Terrorize the enemy before they terrorize
Before they terrorize you

Terrorize, terrorize
