

Hmm, hmm

I tried going to the movies
I done Netflix too
I still watch all the same damn shows
But they're nothing without you
I sing songs with this new girl
To give me déjà vu
We tried singing that Elvis one
But she didn't know how to

You and I had miles and miles ahead of us
I guess time flies by when you're
18, I remember

Standing on the roof of my car
Singing all the way to your heart
We didn't have all the answers
All we needed was us
And I wish I could've stayed by your side
Everyday you plays on my mind
I still can't believe you used to be mine
You used to be mine

You still got my t-shirt
A couple jumpers too
Yeah I know I should take them back
But I'm not gonna try to
I write songs when I'm lovesick
And yeah, they're always true
I keep trying to convince myself
That it isn't about you

You and I had miles and miles ahead of us
I guess time flies by when you're
18, I remember

Standing on the roof of my car
Singing all the way to your heart
We didn't have all the answers
All we needed was us
And I wish I could've stayed by your side
Everyday you plays on my mind
I still can't believe you used to be mine
You used to be mine

You used to be mine
