

Dangerous

Harris J

Dangerous, so dangerous
Dangerous, so dayeyeyengerous (yah)
We're from the South
I've got brothers that do work in different ways
If you try and touch the fam
Then you know can get erased
They ask me how?
How I'm making all this money everyday

If I step up in the dark
You know this roof is getting wrecked
We're from the South
I've got some brothers that will put you
In your place
If you think I'm playing with you
You're making a mistake

We are down
If it's loyal to your money to be made
If you see us in your city
Better know we getting paid
We getting money

It's mad long before I rise up
I got six shots till my nine cuz (Ahh)
Long-time I don't ride the bus
I got four-man and they ride cuz (huh)
Hustle hard in the day time
Do the same thing when the night comes
(What else)

Duct tape on a four, ten
But I still owed with night gloves
(Ah-ah-ah...)
No discussion raised
If he isn't getting stabbed or shot
He's getting rushed and tased
Then my brothers from Jamaica
But it will let the Russian brace, Sutton spray
Rise it up and we'll let it sing like Harris J

We're from the South
I've got brothers that do work in different ways
If you try and touch the fam
Then you know can get erased
They ask me how?
How I'm making all this money every day

If you think I'm playing with you
You're making a mistake

We are down
If it's loyal to your money to be made
If you see us in your city
Better know we getting paid

To danger were just talking

It's heart shot if I pull strings
But connects brum like the ball ring
Might pull up on you with this ball ting
I can practise on the back strip in the black whip
With two white clips

You call beef and practise
I just phone troops to come to clap shit
From knee height I've been dangerous
(Dangerous)
With this hand ting, I've been dangerous
(Dangerous)

With the four pounds
My favourite (favourite) Say
You shoot and you are dangerous
(Dangerous)
But I don't believe like I'm an atheist
(Don't believe, Don't believe)

Now I'm gonna come up
And squeeze in favourist
Tell your mum and brother
Better pray for him
Or everybody gonna pay for him

We're from the South
I've got brothers that do work in different ways
If you try and touch the fam
Then you know can get erased
They ask me how?
How I'm making all this money every day
If I stepped up in a cup
Then you know this roof
Is getting wrecked
We're from the South (Whoop)

(Ah-ah-ah...)

Got some brothers that will put you in your Place

If you think I'm playing with you
You're making a mistake

We are down
If it's loyal to your money to be made
If you see us in your city
Better know we getting paid
