

Wasted On Me

Harris J

If love was a balloon
Could only imagine
No misunderstandings
It would just flow
If all of the baggage
Gets too much to manage
Don't worry about it
You can just go

Cuz if you were to leave right now girl I'd understand
Oh cuz a part of me knows you'll find a better man
Who's there to stay

How could you want me
How could you care
How could you say you love me darling
Got one life to live
So much love to give
Why would you waste it on me
Oh how could you want me
How could you care
How could you say you love me darling
With tears in your eyes
It kills me inside
Why would you waste them on me
On me

I took you for granted
No two ways about it
Caused way too much damage
I was so cold
Oh I knew that I loved you
But I never said it
I guess I deserve it
And we both know that

If you were to leave right now girl I'd understand
Oh cuz a part of me knows you'll find a better man
Who's there to stay

How could you want me
How could you care
How could you say you love me darling
Got one life to live
So much love to give
Why would you waste it on me
Oh how could you want me
How could you care
How could you say you love me darling
With tears in your eyes
It kills me inside
Why would you waste them on me
On me
