

Be Slow

Harrison Storm

All these feet on fire
Heavy are your eyes and the weight on your shoulders
Chasin' after time
Somethin' you can't touch but you know when it's over

No control
When you're running blind
All we know
Is what we left behind

Darlin', you gotta keep breathin'
Lose yourself in the feelin'
Just be slow, just be slow
Take it back to that moment
Before you start to feel broken
Just be slow, just be slow

Try to let it go
Step out from the cold and embrace in the silence
We were never told
We can sink like stones when we should be flyin'

No control
When you're running blind

Darlin', you gotta keep breathin'
Lose yourself in the feelin'
Just be slow, just be slow
Take it back to that moment
Before you start to feel broken
Just be slow, just be slow

Ooh, cover me with moments
Colour in the motion
Ooh, cover me with moments
Colour in the motion

Darlin', you gotta keep breathin'
Lose yourself in the feelin'
Just be slow, just be slow
Take it back to that moment
Before you start to feel broken
Just be slow, just be slow
