Daylight Sun

Harrison Storm

Daylight sun always tries to make its way to you
Over there you run silently, of course you do
Don't hide and wait, too far away now
I'm gonna miss you this time too

Won't say nothing at all darling
I'll believe the words that you said to me
I'll believe you, I'll believe you, endlessly

When there's no nowhere to go darling
I won't leave the world that said you'd need
I'll believe you, I'll believe you, endlessly

Poking fun at the way we rushed with our open hearts
We didn't care too much, what were we supposed to do?
We couldn't wait, for what we said then
I'm gonna miss you, each day through

Won't say nothing at all darling
I'll believe the words that you said to me
I'll believe you, I'll believe you, endlessly

When there's no nowhere to go darling
I won't leave the world that said you'd need
I'll believe you, I'll believe you, endlessly

Won't say nothing at all darling
I'll believe the words that you said to me
I'll believe you, I'll believe you, endlessly

When there's no nowhere to go darling
I won't leave the world that said you'd need
I'll believe you, I'll believe you, endlessly
I'll believe you, I'll believe you, endlessly

Daylight sun always tries to make its way to you
