

## Find a Way

Harrison Storm

Get so far  
Following what you know  
Take a number  
Stare into your thoughts

I know you're hurting still  
I see the fear right in your eyes  
I hope I'll talk some sense  
Can you see through your desires?  
Oh, the better things you'll choose

I believe I'll find a way to let the colour fill my days  
Chasing another road  
I can see that someone else has placed their worry on my days  
Take care of all you hold

Call back home  
Somewhere that you know  
All I found  
Mirrors on the wall  
I believe in something more  
All before you go  
All you need is calmer thoughts  
A way to let them go  
Oh, the better things you'll choose

I believe I'll find a way to let the colour fill my days  
Chasing another road  
I can see that someone else has placed their worry on my days  
Take care of all you hold

I believe I'll find a way to let the colour fill my days  
Chasing another road  
I can see that someone else has placed their worry on my days  
Take care of all you hold
