

How To Help

Harrison Storm

We found you closed up
And needing care
Quiet in your own world
Not reaching, not reaching for help

Oh you've been lonely
Oh you've been scared
Can you let me know
Can you let me know
Can you let me know how to help

You have not been honest
Dealing with daily defeats
Know that we love you
I hope that's some form of relief

Oh you've been lonely
Oh you've been scared
Can you let me know
Can you let me know
Can you let me know how to help

Blessed is the world that does know all your grace
For others you open your heart
We will be there when you feel out of place
And when you're stuck in the dark

Oh you've been lonely
Oh you've been scared
Can you let me know
Can you let me know
Can you let me know how to help
