

My Way Home

Harrison Storm

And I've never known love like the simple way I love you
And I never thought I'd walk beside someone like we do
And the ropes of inner motion inside loosen up
And the hope that we know, like the city lights won't stop glowing

In this short time, I've seen you soar across the sky
In this soft light, I've seen you roar above the trials

And I feel I'm coming home
And I feel like I've found my way home

From every moment that seems to just roll on by
To be on your right helps the time slow before it flies
If I'm honest this love is the flight that I wanted
And I know that it could take us anywhere we'd wanna go

In this short time I've seen you soar across the sky
In this soft light, I've seen you move when others don't

And I feel I'm coming home
And I feel I'm coming home
And I feel I'm coming home
And I feel like I've found my way home
