

# We Are Not A Memory

Harrison Storm

Why do these seasons go long?  
For all we knew it was brought on  
Find me down where I was wrong

Why don't we go there?  
Stars are all grieving  
Why aren't we moving?  
Caught in our reason

We are not a memory  
Letting down our gravity  
I don't want to wait and leave  
Everything that we could be

Bracing now for the impact  
A race to Mars and the sky ash  
Wondering when will the earth crack?

Why don't we go there?  
Stars are all grieving  
Why aren't we moving?  
Caught in opinions

We are not a memory  
Letting down our gravity  
I don't want to wait and leave  
Everything that we could be

We are not a memory  
Letting down our gravity  
I don't want to wait and leave  
Everything that we could be
