

# You & I

Harrison Storm

If we open up the window,  
Will we let the inside out?  
If our heads leave the pillow,  
Will our walls come down?

And I don't wanna leave too soon  
And I don't wanna leave you

Dancing on a daydream  
Telling ourselves this feels fine  
Hide behind a smokescreen  
Only show our filtered lives

But I don't wanna see us slip  
And I don't wanna live like this

But maybe we forgot about us  
Chasing an idea of love  
And the stories we've been told  
Maybe we could start again  
From a place where we don't pretend  
Where everything's alright

Just you and I  
You and I  
You and I  
You and I

Look into my eyes, dear  
Know we'll see the other side  
When we see what's real here  
We won't need to think twice

And I know that it seems too much  
But I'm not giving up

But maybe we forgot about us  
Chasing an idea of love  
And the stories we've been told  
Maybe we could start again  
From a place where we don't pretend  
Where everything's alright

Just you and I  
You and I  
You and I  
You and I

I hope that we can find our way  
I hope that we can find our way  
I hope that we can find our way

You and I  
You and I  
You and I
