

## Green Grow the Lilacs

Harry Belafonte

Green grow the lilacs all sparkling with dew  
Green grow the lilacs when winter is thru  
Each time I see lilacs my heart breaks in two  
Cause springtime is here and it's here without you  
As sure as the bluebirds that fly up above  
Springtime is sad without someone to love  
Yes springtime is sad and it troubles my mind  
In a world full of women, not one girl is mine  
Green grow the lilacs all sparkling with dew  
Green grow the lilacs when winter is thru  
Each time I see lilacs my heart breaks in two  
Cause springtime is here and it's here without you  
They say that it's best to forget what we had  
Then it is to remember and always be said  
But still I keep wondering each now and then  
If ever I'll see you and kiss you again  
Green grow the lilacs all sparkling with dew  
Green grow the lilacs when winter is thru  
Each time I see lilacs my heart breaks in two  
Cause springtime is here and it's here without you
