# One Step

**Harry Belafonte**

Well it just takes one step to start a journey
No matter how far you may go
No matter how far you may go

It just takes you smiling to fill me with sunshine
And change my life ever so
And change my life ever so

Well something's a person can't understand
No matter how much he thinks knows
No matter how much he may know

Yes it just takes one step to start a journey
No matter how far you may go
No matter how far you may go
