

Being alone

Harry Connick, Jr.

Not asking for anything
Baby come see about me
Don't want you to do a thing
But baby come see about me
I don't wanna feel deserted
I don't wanna feel alone

I know you have your life
And it goes around you
And everybody sees they need you too
You shoulda hear me calling
Must astound you
But no one really needs you like I do

I don't wanna bother you
Baby come see about me
I don't wanna trouble you
But baby come see about me
And I'll even pay the cab fair

You can't let em lead around
And if someone should ask
Use your discretion
Nothing you could say can hurt my pride
And if I had another first impression
I'd tell you what I really feel inside

Come see about me
Come see about me
I'm waiting patiently
Come see about me

And if it's too much for you
Just want you to know about me
I'll stay out of touch for you
However hard that might be
I can make it on my own now
Well at least I know I'll try

And on the wind I hear the sound of laughter
It makes me smile, as laughter tends to do
But when the wind is dying, the chill comes after
Because I know that laugh belongs to you

Come see about me
Come see about me
I'm waiting patiently
Come see about me
