

Criminal

Harry Hudson

Mama, I fell in love with a criminal
Wicked play stole my heart at Union Square
Mama, you told me love was a miracle
So why do I keep feeling like nobody cares?

It's the only thing I know
Fighting through the cold to find ya
Looking for your light
The shadows always high of the truth
Lighting up the cold
You can see the smoke, I'm on fire
In a world filled with ghosts and can only see a soul in you

I've been trying find my way in the city
I don't even know myself anymore
But if I'm sure of one thing, I need you with me
Even if half the time we're at war
But that's just the way it goes
That's just the way it goes
Either way it goes

Father told me one day by the river
You'll find glory and hurt within the flow
There's a pain here but it don't last forever
Gotta let it gel with your heart so we can grow

It's the only thing I know
Fighting through the cold to find ya
Looking for your light
The shadows always high of the truth
Lighting up the cold
You can see the smoke, I'm on fire
In a world filled with ghosts and can only see a soul in you

I've been trying find my way in the city
I don't even know myself anymore
But if I'm sure of one thing, I need you with me
Even if half the time we're at war
But that's just the way it goes
That's just the way it goes
Either way it goes
