

## Just Slide

Harry Hudson

Tell me if you love me, tell me if you understand  
(Tell me if you understand)  
I just need somebody, even if I ain't your man  
(Even if I ain't your man)  
You gave me your body, I gave you the upper hand  
(Gave me your body, I gave you the upper hand)  
So tell me if you love me, tell me if you understand

If you feel something  
Then just slide, then just slide  
If you feel something  
Then just slide, then just slide  
If you feel something (feel something)  
Then just slide, then just slide  
If you feel something (feel something)  
I hope you feel something

Tell on everybody, even if they ain't your friend  
(Yeah, even if they ain't)  
Mad 'cause I want it bad and you never gave me a chance  
(Yeah, and you never gave me)  
It gets messy in the dark, still I can't erase your air  
(Still I can't erase your)  
So tell me if you love me, I don't think you understand

If you feel something (feel something)  
Then just slide, then just slide  
If you feel something (feel something)  
Then just slide, then just slide  
If you feel something (feel something)  
Then just slide, then just slide  
If you feel something (feel something)  
I hope you feel something (feel something)

If you feel something  
Then just slide, I'll be outside  
If you feel something  
In my life, girl it's our time  
If you ever need a friend  
we can make it intimate  
Girl, I know you got a man  
but we only talkin'  
Love when you vent to me  
I'll be honest  
Hate saying bye to you  
It's the hardest  
Saw she's a goddess  
One day they'll tell our  
Story, I promise

Uh, on a beach I found a message in a bottle and I  
Wrote it to you, I was crying in Toronto and I  
Lay on the bed, hiding all of my sorrows, your eyes  
Keep me going, girl, without you I could never survive  
You ain't hit me back tonight but tomorrow if you

If you feel something (feel something)

Then just slide, then just slide  
If you feel something (feel something)  
Then just slide, then just slide  
If you feel something (feel something)  
Then just slide, then just slide  
If you feel something  
I hope you feel something
