

She's Yours

Harry Nilsson

(Yours) Yours
(She's yours) Yours
(She's yours) Take her
(She's yours) Yours
(She's yours) Take her
(She's yours) She's yours

And then she told me goodbye
And then I asked the reason why
Imagine my surprise to find
That every I thought was mine

(She's yours) Yours
(She's yours) Yours
(She's yours) Yours
(She's yours) Yours
(She's yours) Yours

And now my future isn't clear
For with a love, it disappeared
And now the nights, they seem so long
Because the girl I loved is gone

(She's yours) Yours
(She's yours) Yours
(She's yours) Yours

She's the girl to satisfy ya
Stand right by her, hope tonight
You'll find your turn
She's the one, better than
A hundred others understand
She loves you
Yes, she loves you
Yes, it's true

And now I find I can't explain
How could our love have been in vain?
And was there left for me the same?
I had a love just yesterday

But today
(She's yours) Yours
(She's yours) Yours
(She's yours) Take her
She's yours
She's yours
