

## Complicated Freak

Harry Styles

She got wrapped up in somebody else  
I'm wrapped up stuck in love with myself  
I never saw this coming around  
But I miss her skin on me now  
Tip of my tongue she's pulling my hair  
I do what she wants anywhere  
Back seat of the car and up in the air  
But I miss how she kissed everywhere

I can't get you off my mind  
I can't get you off my mind  
I still crave it, you complicated freak  
I still crave it, you complicated freak  
I still crave it, complicated  
Freak

Turned up too late one too many times  
Bad choice of words in my alibi  
I guess I love crazy, out of your mind  
You lost your head, so I'll give you mine

I can't get you off my mind  
I can't get you off my mind  
I still crave it, you complicated freak  
I still crave it, you complicated freak  
I still crave it, complicated  
Freak

She got wrapped up in somebody else  
I'm wrapped up stuck in love with myself (Ha)

I can't get you off my mind  
I can't get you off my mind  
I still crave it, you complicated freak  
I still crave it, you complicated freak  
I still crave it, complicated  
Freak
