

Dance No More

Harry Styles

I don't think we should be here, I see no water or friends
But the music keeps hitting me like a ten out of ten
So I don't think (Got something to say)
No, I don't think (Got something to say)

Conversation is hearing you get it all off your chest
You can come over here to tell me again and again
What you think (I've got something to say)
No, I don't think

Move it side to side with your hands up high
Keep your customer satisfied and live your life

DJs don't dance no more, they said
"DJs don't dance no more"
We wanna dance with all our friends
DJs don't dance no more
It's feeling like the music has been heaven-sent
And there's no difference in between the tears and the sweat, uh
DJs don't dance no more, they said
"DJs don't dance no more"

Move it side to side with your hands up high
Keep your customer satisfied and live your life

DJs don't dance no more, they said
"DJs don't dance no more"
We wanna dance with all our friends
DJs don't dance no more
It's feeling like the music has been heaven-sent
And there's no difference in between the tears and the sweat, uh
DJs don't dance no more, they said
"DJs don't dance no more"

Get your feet wet
Teach them all to respect their mother
You gotta get your feet wet
Respect, respect your mother
Be a good girl, go get it, fox

DJs don't dance no more, they said
"DJs don't dance no more"
We wanna dance with all our friends
DJs don't dance no more
It's feeling like the music has been heaven-sent
And there's no difference in between the tears and the sweat, uh
DJs don't dance no more, they said
"DJs don't dance no more"

Gotta get your feet wet
Respect, respect your mother
