

Lay Down

Harry Styles

[Verse 1]

One, part of me is breaking
You came in my head today
Won't go away no
I thought I'd remembered how to forget

[Verse 2]

Two, hearts are divided
Now that we're worlds apart
things seem so hard to take
I thought I'd remembered but not just yet

[Pre chorus]

Let's not make this complicated
we were never meant to make it this time
It's not too late for us to save this

[Chorus]

So, I didn't wanna have to go
But we need a little time alone
I can't bear when you get scared
and you try not to let it show
I'm so glad I found ya
Then I put my arms around ya
When you lay down with me

[Verse 3]

I heard that you're different
Know that it's hurting now
But don't be down no
I just wanna know that you're alright

[Pre chorus]

Even though it's complicated,
We were never meant to make it this time
Oh is it too late for us to save this

[Chorus]

So, I didn't wanna have to go
But we need a little time alone
I can't bear when you get scared
and you try not to let it show
I'm so glad I found ya
Then I put my arms around ya
When you lay down with me

[Bridge]

All of these fights now seem forgettable
Coz you're wonderful
Don't you know that
Things that we didn't need to change at all

[Chorus]

So, I didn't wanna have to go
But we need a li'l time alone

But I can't bear when you get scared

and you try not to let it show (show)
I'm so glad I found ya
Then I put my arms around ya (I put my arms around)
When you lay down with me

Lay down with me (I put my arms around ya)
Lay down with me (I put my arms around ya)
Lay down with me, lay down with me
Lay down with me-e
Lay down with me (I put my arms around ya)
Lay down with me (I put my arms around ya)
Me-e (around ya)
Down with me
