

# Pop

Harry Styles

Daytime mainlining  
No more rolling papers  
Catching stray dogs  
Try but you can't tame them

It's just me  
On my knees  
Squeaky clean fantasy  
It's meant to be pop

Am I in over my head?  
This could go anywhere  
I do it and do it again  
It's meant to be pop  
I don't know how it'll end  
This could go anywhere  
I pull and I pull at the thread  
It's making me pop  
I wanted to behave  
But I know I'll do it again  
I know I'll do it again  
It's making me pop  
I wanna take up all your time (Pop)

Katie's waiting  
To be your game-day savior  
First time tasting it  
It's nice to mix two flavors together  
Together, mm-hmm

It's just me  
On my knees  
Pop

Am I in over my head?  
This could go anywhere  
I do it and do it again  
It's meant to be pop  
I don't know how it'll end  
This could go anywhere  
I pull and I pull at the thread  
It's making me pop  
I wanted to behave  
But I know I'll do it again  
I know I'll do it again  
It's making me pop  
I wanna take up all your time (Pop)
