

Talk

Harry Styles

Threw myself away, I was sleeping late
You forgot my name
Sick and tired of me
I can feel the heat filling up my veins
Oh, now I'm waking up
Wanna shake things up
Is this good enough?

Don't ask me to talk about...
I don't wanna talk it out

Hey
Through the fog do what you want, just stick around, hey
Through the fog do what you want, just stick around, hey
Do whatever you want, y'know that I'm gonna stick around, hey (ah)
Don't ask me to talk about...
I don't wanna talk, ah

Moved to Hollywood, 'cause she said I should
Doin' it my way
Love is what you want
Love's a broken bone
Don't you, don't you wait?
Hey

Don't ask me to talk about...
I don't wanna talk it out

Hey
Through the fog do what you want, just stick around, hey
Through the fog do what you want, just stick around, hey
Do whatever you want, y'know that I'm gonna stick around, hey (ah)
Don't ask me to talk about...
I don't wanna talk, ah

Oh, oh
Oh, oh
Oh, oh
Oh, oh
Oh, oh
Oh, oh
Oh, oh
Oh, oh

Ah, hey
Through the fog do what you want, just stick around, hey
Through the fog do what you want, just stick around, hey
Do whatever you want, you know that I'm gonna stick around, hey (ah)
Don't ask me to talk about...
I don't wanna talk, ah
