

## Lie Down

Harvest

Even when the path is dark  
When the road ahead is long  
Even when the shadows fall  
I will fear no evil, I will fear no evil

You lead me beside the quiet streams  
You restore my soul  
Like I couldn't believe  
How You let me lie down  
Yeah, You let me lie down  
In pastures green, there's a table for me  
In the presence of all my enemies  
You let me lie down  
Yeah, You let me lie down

Even in the valley deep  
When the thoughts won't let me sleep  
Even when I can't find peace  
I will fear no evil, I will fear no evil

You lead me beside the quiet streams  
You restore my soul  
Like I couldn't believe  
How You let me lie down  
Yeah, You let me lie down  
In pastures green, there's a table for me  
In the presence of all my enemies  
You let me lie down  
Yeah, You let me lie down

Surely all Your goodness and mercy  
Fills me to overflowing all the days of my life  
Forever I'm dwelling with a heart of thanksgiving  
In the courts of the Lord for all the days of my life

You lead me beside the quiet streams  
You restore my soul  
Like I couldn't believe  
How You let me lie down  
Yeah, You let me lie down  
In pastures green, there's a table for me  
In the presence of all my enemies  
You let me lie down  
Yeah, You let me lie down

Better is one day with You than thousands without You
