

Cast Aside

Hatchie

Whatever lies were told, I cast them aside
I never hear your voice, it's fallen behind

You've played my heart enough
Little games, I can't keep up
You say you don't wanna talk about it
Been played, guess I'm out of luck

Whatever lies were told, I cast them aside
I never hear your voice, it's fallen behind

A hundred days since your touch
Replays, I'm all choked up
Though it fades, I can't take it any longer
What a shame I had to rise above

Whatever lies were told, I cast them aside
I never hear your voice, it's fallen behind

Whatever lies were told, I cast them aside
I never hear your voice, it's fallen behind
