

# Sleep

Hatchie

You don't have to speak out loud  
You can say it in your sleep  
Just come see me in my dreams  
No wonder I'm smiling in my sleep

Tell me if you could decide  
What you could provide  
Wanna know your insides  
With no time left to hide  
Do you still believe in fate?  
Great love still awaits  
Or is it really too late?  
No time to escape

You don't have to speak out loud  
You can say it in your sleep  
Just come see me in my dreams  
No wonder I'm smiling in my sleep

I dream of keepin' you confined  
No one else is all mine  
Put our differences aside  
Two worlds collide  
Baby, I'm a piece of glass, I shatter so fast  
Don't know how long I'll last  
Is one day too much to ask?

You don't have to speak out loud  
You can say it in your sleep  
Just come see me in my dreams  
No wonder I'm smiling in my sleep

Tell me what's on your mind  
Are you leavin' me behind?  
Do you feel what I feel?  
Is it buried deep inside?

You don't have to speak out loud  
You can say it in your sleep  
Just come see me in my dreams  
No wonder I'm smiling in my sleep  
You don't have to speak out loud  
You can say it in your sleep  
Just come see me in my dreams (my dreams)  
No wonder I'm smiling in my sleep

You don't have to speak out loud  
You don't have to speak out loud
