

# Bringer Of Storms

**Hate Eternal**

Ave! I am the bringer of storms  
Charge! Legions of the dead  
Ave! I am the bringer of scorn  
Charge! Order of the abyss

Avenge me now  
With forces of a thousand dead  
O mighty winds of death  
Great masters of earth now rise

Adversary of darkness  
Thus he was thus he peished  
Thus he carries the torch in infamy

Ave! I am the bringer of storms  
Charge! Legions of the dead  
Ave! I am the bringer of scorn  
Charge! Order of the abyss

Swarm to the flock  
By hordes of vengeance you shall be slain  
Amongst the shadows of death  
Powerful prophets of doom now rise

Priests of eternal wrath  
I demand to seek my revenge  
Emerging from the abysmal consumption  
Cleanse this earth scourge the world

Once again the blood shall spill  
And forever more  
Cleanse this earth, scourge the world  
Once again birth of a new era

And forever more  
Absolution shall be mine  
Upon the eyes of fire  
I she'd my fears  
Amidst the presence of thee

Hail! Hail! Hail!  
I am the bringer of scorn  
Hail! Hail! Hail!  
Retribution shall be mine

Upon the accursed shores  
I have no fears  
Consumed by the presence of thee  
May I burn upon the pyre of Styx

Floating amongst the rivers of blood  
I have no fears  
I am the vestibule into extinction

Hail! Hail! Hail!  
Hail! Hail! Hail!  
I am the bringer of scorn

Hail! Hail! Hail! Hail!
