

# Locust Swarm

**Hate Eternal**

We are a million strong  
Agglomeration of the  
Impending darkened plague  
Congregate, conglomerate, destroy

The assemblage, subversive from within  
Insidious in their nature  
All-consuming everlasting void

Locust swarm  
Descending upon the masses  
Plagues afflicting  
With dire consequences  
Locust swarm

Locust swarm  
Devouring all the living  
Stricken by the pestilence  
Of a hundred thousand years  
Locust swarm

We are vast in numbers  
Accumulation of  
The engulfing blackened plague  
Concentrate, dissipate, destroy

Convocation, invoked by the masters  
Heinous in their nature  
Enslaved humanity to endless toil

Locust swarm  
Descending upon the masses  
Plagues afflicting  
With dire consequences  
Locust swarm

Locust swarm  
Devouring all the living  
Stricken by the pestilence  
Of a hundred thousand years  
Locust swarm

Locust swarm  
Locust swarm  
Stricken by the pestilence  
Of a hundred thousand years

Clouds of tribulation  
It spreads across the land  
Wrath of the ancients

Skies of condemnation  
Haze of all illumination  
Blotting out the face of the sun

Why have you forsaken us?  
Why must all now come to an end?

Cursed I beseech thee  
May thy abolishment  
Come to an abrupt end!
