

# Walk Through Fire

Hate

Athanatos Salva Me!

I walk through fire where the ardent sky has no limit  
Revival of the sword, triumphant revenge  
Genesis! Odium Invictus!  
Through raging chaos  
A stardust incarnate

Dawn of blades! Everlasting and sacred  
Fire descends bringing Gnosis to these lands  
Misticum! Through our will  
Through our sheer defiance  
Majestic and blessed!  
A new order's conceived in explosions and blasts

Cras es noster! Omega reigns supreme!  
A prophet of extinction igniting the fires  
Swearing allegiance to one burning will  
Making a road for the spirit

Listen to the messenger  
Trust my Nemesis to seal extinction  
Reclaim! The day of reckoning is nigh!

Cras es noster! Omega reigns supreme!  
A prophet of extinction igniting the fires  
Standing on the threshold of a terrible fate  
Making a road for the spirit

Tonight we stand up to judge the old world  
In the silence of a shameful white flag, it shrinks away  
Tyrants, regimes will all come down to dust  
Mediocrities will perish  
I condemn everything you stand for  
Liberation from dirt  
Liberation from you  
Eulogists of gods! Go fuck yourself with your voodoo!  
The sun of death burns you down to nought!

Ta noc jest ogromna i świetlista  
W strugach wieczności  
Zorza, która nigdy nie gaśnie  
Spieniony potop płomieni  
Wasz świat się rozpada  
Przemawia ogień  
I śmierć przemawia  
Jej majestat przedwieczny  
U fundamentów świata  
Widnokrąg jasny i zimny  
Z mej krwi...  
Przez me oczy patrzący  
Głodnych kruków krążą stada  
Kopcie groby, kopcie groby...
