

# Dig Your Way Out

Hatebreed

Try as you might when all theories fail  
No hesitation into the pale  
Urge overtakes and the moment dies  
In a crashing wave your wrists are tied

It's all caving in on you  
It's all caving in on you  
(Dig your way out)  
It's all caving in on you  
It's all caving in on you  
(Dig your way out)

Don't promise, just prove  
Don't fear, push through  
Don't chase the pain  
Become it

The urge overtakes it was nothing but an urge  
The reason to go on must be unearthed  
You can't just spend your whole life waiting  
Pushing to the surface as it's caving

It's all caving in on you  
It's all caving in on you  
(Dig your way out)  
It's all caving in on you  
It's all caving in on you  
(Dig your way out)

Don't promise, just prove  
Don't fear, push through  
Don't chase the pain  
Become it  
Don't promise, just prove (Just prove)  
Don't fear, push through (Push through)  
Don't hesitate  
Live through it

Don't promise, just prove (Just prove)  
Don't fear, push through (Push through)  
When the urge overtakes  
Don't chase the pain, become it

Dig your way out

Engage the crippling doubt of loss and love  
Stunned by visions of what once was  
Grief and deceit with sorrow feeds the angst  
Comfort is destruction, there can be no more relief
