

Spitting Teeth

Hatesphere

Throw away
Any sense of logic
Liberate the malevolence
You brought this on yourself
I despise
The look of you alive
It Is Compelling me to act
With extreme aggression

State your mind
Cross the line
Indulge in violent spite
I'll go to hell and back
Just for the hell of it

Rip and tear
Can't get away from me
Adrenaline is kicking in
Now let the nightmare begin

Bathing in blood
Can't get enough
Bathing in blood
I Can't get enough

Yeah

Walking on corpses
I have brought with me
The darkest forces
Ignite the misery
Drowning in blood I am a god
Now get down on your knees
Walking on corpses
I have brought with me
The darkest forces
Ignite the misery
Drowning in blood I am a god
Now get down on your knees
While you are Spitting Teeth

Peeling off your skin with a rusted saw
Domination through mutilation

My life is blood and gore
My every breath is war
Weaponize and fantasize
Taking a thousand lives
Taking a thousand lives

Walking on corpses
I have brought with me
The darkest forces
Ignite the misery
Drowning in blood I am a god
Now get down on your knees
Walking on corpses

I have brought with me
The darkest forces
Ignite the misery
Drowning in blood I am a god
Now get down on your knees
While you are Spitting Teeth

Violence
Playing the violin
A symphony of the purest hate
Composing your demise
A mindset so sinister
A Primal rage
Face first into the fire
Nothing can hold me back
Nothing can hold me back
Nothing can hold me back
Nothing can hold me back

Yeah
