

Nature's interface

Haujobb

Cities close to the seas calming objects to me trying to
keep it in memory before all illusion leave a dead letter
"first contact - growing fear" life lessons like old time
movies casting a deadly spell - running scared a memory
play cities beneath the seas brave new system those last
legends wanted dead or alive the world sounds so small
haunting passion duplicates minutes after noon attached
visitor's choice the force of nature's interface
homeworld fear inside colour of authority in suspicious
minds redemption
