

I can hear it coming
I know it's on it's way
When it starts to overflow
I fall asleep again

And the way you're talking
Is telling me it's here
And when you start to overflow
I will lie again

Do you feel it glowing?
Do you feel it's here?
Anywhere I'm going
It's near

I can feel it coming
On the faces that you wear
Until they start to overflow
I've given all I can

Do you feel it glowing?
Do you feel it's here?
Anywhere I'm going
It's near
