

# ALL DAY

Havana Brown

All day, all day, all day  
All day, all day, all day

You got me going off the deep end  
Started with the one and now I need it, oh yeah  
If I told you every reason why I like it  
Then we might just be here all day  
All day, all day, all day

My oh my  
Boy, you're doing something right  
You must be tired  
From running circles round my mind  
And all that sleep I lose  
I blame that shit on you

I, I'm falling into crazy love  
And I don't care if it gets dangerous (oh)  
Get me talking I might say too much  
Get me talking I might say too much

You got me going off the deep end  
Started with the one and now I need it, oh yeah  
If I told you every reason why I like it  
Then we might just be here all day

All day, all day, all day  
All day, all day, all day  
(All day, all day)  
All day, all day, all day  
We might just be here all day  
All day, all day, all day

Elevated, you take me to the highest places  
I'm impatient so can we skip the conversation  
Coz any word I use  
Could never show you

I, I'm falling into crazy love  
And I don't care if it gets dangerous (oh)  
Get me talking I might say too much  
Get me talking I might say too much

You got me going off the deep end  
Started with the one and now I need it, oh yeah  
If I told you every reason why I like it  
Then we might just be here all day

All day, all day, all day  
All day, all day, all day  
(All day, all day)  
All day, all day, all day (ooh)  
We might just be here all day

You got me going off the deep end  
Started with the one and now I need it (I need it, I need it)  
If I told you every reason why I like it

Then we might just be here all day

All day, all day, all day

All day, all day, all day

(All day, all day, all day)

All day, all day, all day

(All day, all day, all day)

All day, all day, all day (ooh)

All day, all day, all day
