

## Alive

### Have Mercy

Speak the truth, you haven't done it since the day that I met you so  
Tell me right now how you want this thing to go  
No we can't restart  
Is this where we fall apart and I let you go?  
It's taking everything in me not to pick up the phone

And say hello, it's hard to say I miss you and come back home  
When I don't wanna see your face  
And I'm alive, it's hard to say I miss you and come back home  
And I can't make the same mistake  
I can't make the same mistake

I thought I knew you  
Who'd you run to when things got heavy?  
It's taking everything in me not to pick up the phone

And say hello, it's hard to say I miss you and come back home  
When I don't wanna see your face  
And I'm alive, it's hard to say I miss you and come back home  
And I can't make the same mistake  
I can't make the same mistake

Speak the truth  
You haven't done it since the day that I met you  
Speak the truth  
It's taking everything in me not to pick up the phone

And say hello, it's hard to say I miss you and come back home  
When I don't wanna see your face  
And I'm alive, it's hard to say I miss you and come back home  
And I can't make the same mistake  
I can't make the same mistake
