

Friday

Have Mercy

You had some pent up energy
I had the rush of seventeen
With a handful of friends and a bottle that's empty
This must be the place that we wanted to be
This must be the feeling that you wanted since the day that you met me

But what can I do
It's like my world revolves around you
And I can't get away

Would you say
It is evident I can't make it go away?
I'm in love with you again
I'm in love with you again
If it's okay
I'd like to tell you that I can't think of a better way
I'm in love with you again
I'm in love with you again

I have some messed up memories
Forgot just what it's like to dream
I miss the salt in the air
I miss the cigarette drags too
And honey you're so hard to hold onto
I've been trying not to let go since the day that I met you

But what can I do
It's like my world revolves around you
And I can't get away

Would you say
It is evident I can't make it go away?
I'm in love with you again
I'm in love with you again
If it's okay
I'd like to tell you that I can't think of a better way
I'm in love with you again
I'm in love with you again

Would you say
It is evident I can't make it go away?
I'm in love with you again
I'm in love with you again
If it's okay
I'd like to tell you that I can't think of a better way
I'm in love with you again
I'm in love with you again

I'm in love with you again
I'm in love with you again
If it's okay
I'd like to tell you that I can't think of a better way
I'm in love with you again
I'm in love with you again
I'm in love with you again
I'm in love with you again
