

Mattress On The Floor

Have Mercy

Had a dream I was back at 23
And you still had that small mattress on the floor
We'd get high, sit back and laugh at things we've done
Tell stories how we've both been hurt before

And how I never wanted to do you like they did
And how I never wanted to do you like they did
And they did, and they did, and they did

So take me back to the city again
Tell that you remember when
All we did is just lay in bed

I had a dream I was back at 25
And we had that small apartment broken down
I know we fought about how miserable it was
But I knew that I'd take care of you somehow

And how I never wanted to do you like they did
And how I never wanted to do you like they did

I didn't see it coming
Now I never want to see you again
I didn't see it coming
Now I never want to see you again

So take me back to the city again
Tell that you remember when
All we did is just lay in bed
So take me back to the city again
Tell that you remember when
All we did is just lay in bed

And I don't dream like I used to anymore
I still drink about that mattress on the floor
