

## Middle

### Have Mercy

It's been a long time, can't remember  
It's been a long time in this room  
And I'm so scared you wouldn't find me there  
It's been a long time without you

When is the last time you felt forever?  
Is it the last time I felt you?  
Cause I'm not worried, I ain't in no hurry  
It's been a long time without you

You fell asleep in my arms, now I'm stuck in the middle  
And I know you get down, things might seem a little crazy  
You fell asleep in my arms, now I'm stuck in the middle  
And I know you get down, things might seem a little crazy

It's been a long time, can't remember  
It's been a long time in this room

You fell asleep in my arms, now I'm stuck in the middle  
And I know you get down, things might seem a little crazy  
You fell asleep in my arms, now I'm stuck in the middle  
And I know you get down, things might seem a little crazy

You fell asleep in my arms, now I'm stuck in the middle  
And I know you get down, things might seem a little crazy  
You fell asleep in my arms, now I'm stuck in the middle  
And I know you get down, things might seem a little crazy
