

Fear Campaign

Havok

It's easy to control someone who's scared
Put a gun against their head and start barking commands
Watch them beg and cry and plead
Ravenous manipulation, vicious scheme

Don't believe what they say
Another lie, another dollar made
They're controlling the masses
Through a fear campaign

Fear - they use fear to control you
They use fear
They're using fear to control you
They're using fear

They're sharpening the tools of misinformation
Media tries to hide their affiliation
To the war machine and debt collectors
Ostracize the agenda rejectors

Don't believe what they say
Another lie, another dollar made
They're controlling the masses
Through a fear campaign

Fear - they use fear to control you
They use fear
They're using fear to control you
They're using fear
Fear campaign, unrestrained, infects your brain
Fear loses grip when you turn and look away
Reject fear

They're running the show from behind a veil
Information turns into betrayal

Don't believe what they say
Another lie, another dollar made
They're controlling the masses
Through a fear campaign

Fear - they use fear to control you
They use fear
They're using fear to control you
They're using fear
Fear campaign, unrestrained, infects your brain
Fear loses grip when you turn and look away
Reject fear
