

Nuclear warfare  
Create, desolate  
Lives that are gone  
No trust in fate  
HAVOK arise  
Death to us all  
The end is here  
Answer death's sweet call

FIRE!  
Disintegrate the flesh  
Leaving nothing left  
No one to save our planet  
NOW!  
It's time for us to die  
Look up to the sky  
Watch our cities vanish

Anarchist dream  
Extinction of mankind  
Leaders are dead  
There's no life to find  
Chaos reigns  
Destruction mounts  
Peace is gone  
Raising body counts

FIRE!  
Disintegrate the flesh  
Leaving nothing left  
No one to save our planet  
NOW!  
It's time for us to die  
Look up to the sky  
Watch our cities vanish

Nowhere to run  
Nowhere to hide  
There's no escape  
So swallow your pride  
Fear is no more  
Cease to exist  
Lay your body to rest  
Your life you shall miss

FIRE!  
Disintegrate the flesh  
Leaving nothing left  
No one to save our planet  
NOW!  
It's time for us to die  
Look up to the sky  
Watch our cities vanish
