

## Lest We Forget

Hawk Nelson

Grown up, now it's my turn  
Dare me to make my move  
Nowhere to go  
And I still don't know  
But I'll make it through  
Times change, change like the wind  
I'm blown away again  
Goodbye to my friends  
New life begins  
Without you  
These were the days the choices we make  
Decide who we will be  
And where we go  
As we say goodbye  
The look in your eye is screaming silently  
Remember to never forget  
Move on, watching you live  
Dying to be like you  
I'd go back in time  
But I can't press rewind  
Sad but true  
Broke down, I'll be okay  
I'm gonna make it through  
I won't be afraid  
Starting today  
Without you  
Don't you ever forget
