

One Shot

Hawk Nelson

It's 2 o'clock, your eyes are shut,
Your phone alarm is going off
The sun is up, you're still in bed,
Another day gone again

This isn't what you wanted was it
Know you've got a pulse let's get it started

You've got one shot, all you got take it now
You gotta get up, get up, get up oh-wo-oh-wo-oh
One life, live it right, keep on moving forward
You've got one shot everybody it's your time
I wanna see you on the other side
You've got one shot, all you got, live out loud
Come on wake up, wake up, wake up before it's over

You got a truck, take a drive
Go somewhere to feel alive
You got a dream, say a prayer,
A little faith will get ya there

This is what you wanted promise
Never go back to the way you started

You've got one shot, all you got take it now
You gotta get up, get up, get up oh-wo-oh-wo-oh
One life, live it right, keep on moving forward
You've got one shot everybody it's your time
I wanna see you on the other side
You've got one shot, all you got, live out loud
Come on wake up, wake up, wake up before it's over
